

BPB/MBE HAL Corpus Final Release

Release index, reviewer route and guardrail summary

Generated: 2026-05-06T05:47:29.016868+00:00

Final paper set

Paper	Version	Role	Pages
Paper 0	v0.9	Foundational HR/BPB dictionary	27
Paper I	v0.4.1	Low-redshift observational closure	16
Paper II	v0.4.1	SPARC/galactic response and raw-RC amplitude validation	15
Paper III	v0.4.1	CMB dictionary selection and Weyl-auto lensing closure	8
Paper IV	v0.4.1	Compact-object/neutron-star strict tidal response gate	14
Paper V	v0.3.2	Early-galaxy UVLF/rho-star/physical-peak gate	10
Paper VI	v0.2.1	E_G Weyl-matter cross response and projector gate	9
Paper VII	v0.3	Acceleration-scale, BTFR and raw baryonic-RC support gate	12

Guardrail

This corpus is designed to be easier to audit, not easier to oversell. The root 00_* files do not change the paper-level scientific locks; they expose the reading order, source-lock map, reviewer route and remaining non-blocking extensions.
